2. Music player

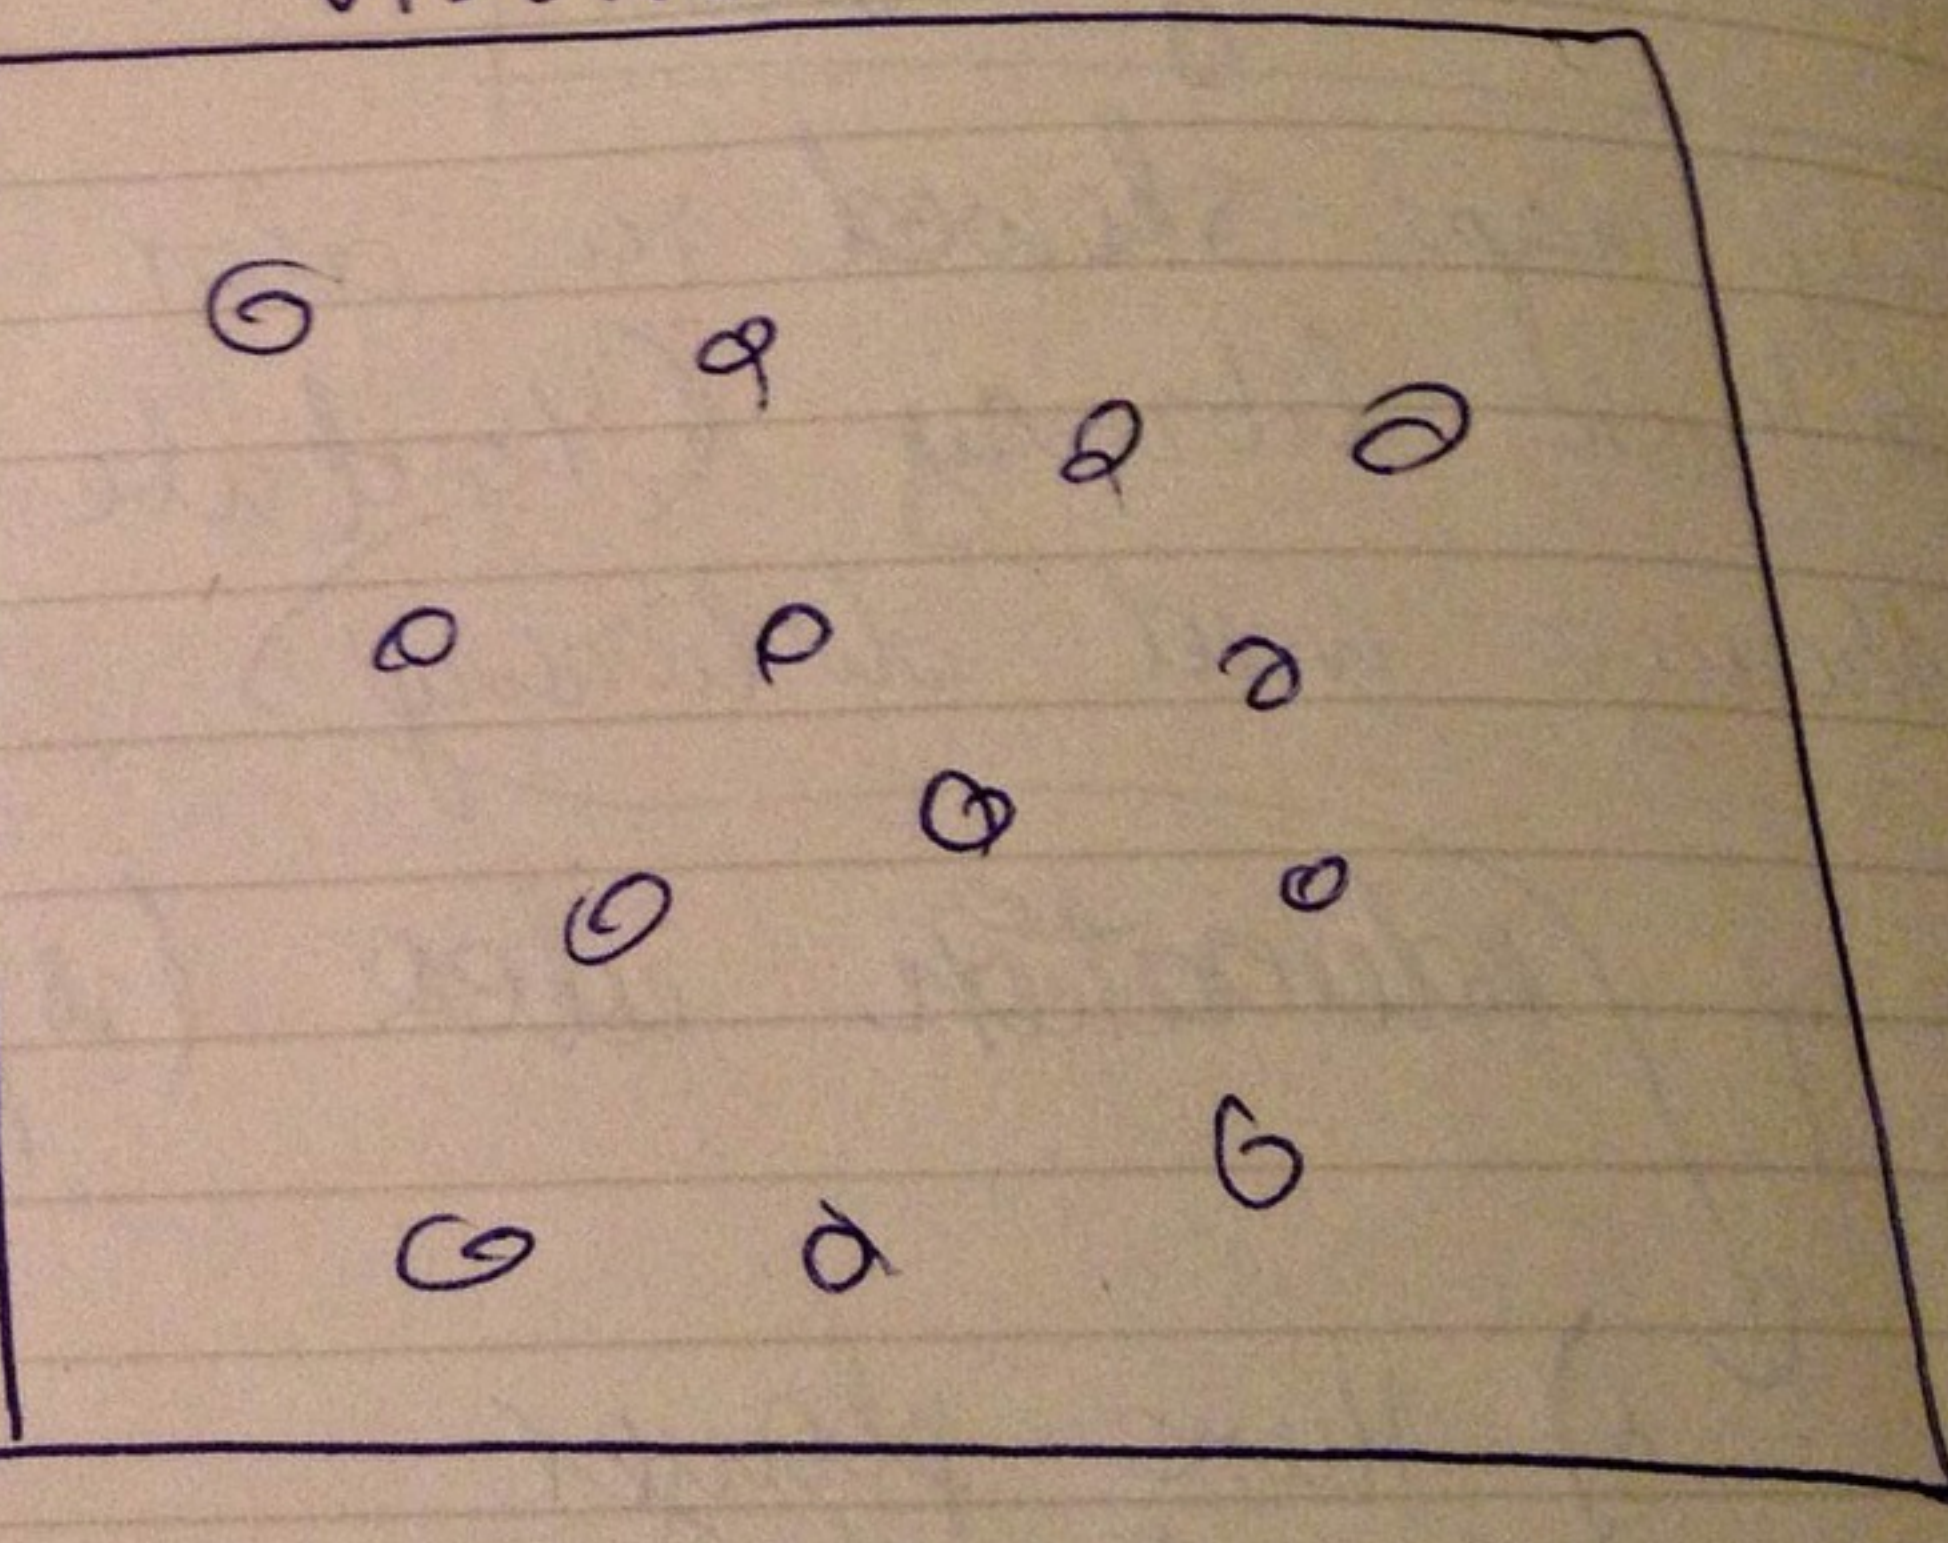

3. Visualization

Music player

VISUAL

Who's the user?

Timeline

November 11: Getting Youtube API to work the way I want it to work. Here's the rough code of what's happening right now: it's a mess and I'm using code of different homework but Youtube API is working (!).

November 18: code for the visual part ready. I will definitely consult with Sabrina.

November 25 (no class): continue working on code. User testing / playtesting / improving code. Also working on the final interface.

December 2nd: final showcase.

Questions for the class

1. Title
2. Interface: frame on the canvas and using two canvas?
3. Visual: sound frequency

Any other ideas?
